 National Institute of Allergy and Infectious Diseases	Document Number: DAIDS-OPC-A15-POL-00005	Revision Number: 03
Division of AIDS	Effective Date: 23 Jul 2025	Page: 2 of 4
Document Title: Requirements for Informed Consent Forms		

1.0 PURPOSE

- 1.1 This policy describes the requirements for the development of informed consent forms (ICFs) for all DAIDS-supported and/or-sponsored clinical research.

2.0 SCOPE

- 2.1 This policy applies to all DAIDS-supported and/or-sponsored clinical research involving human subjects.
- 2.2 DAIDS Network Clinical Research Sites (CRSs) should follow operational requirements related to this policy that are described in the SCORE Manual.

3.0 DEFINITIONS

For additional definitions, see [Glossary of DAIDS Clinical Research Policy Terms](#)

4.0 RESPONSIBILITIES

- 4.1 Institutional Review Board (IRB)/Ethics Committee (EC)/Regulatory Entity (RE)/Regulatory Authority (RA)

The reviewing IRB/EC/RE/RA is responsible for performing their functions as outlined in 45 CFR 46.108- 113, 45 CFR 46 Subparts B, C, and D, 21 CFR 50 Subpart D, 21 CFR 56 Subpart C, and other applicable requirements.

- 4.2 Protocol Team

The Protocol Team is responsible for:

- 4.2.1 Developing the protocol and ICF(s) that will be used either,
 - (a) as is, for single-site studies, or
 - (b) to develop sample ICFs for multi-site studies;
- 4.2.2 Ensuring that the content and format of the ICF meet the requirements of 45 CFR 46;
- 4.2.3 For clinical research that meets the NIH definition of a clinical trial, ensuring that the content of the ICF is also consistent with the requirements of ICH E6;
- 4.2.4 For U.S. FDA-regulated IND clinical trials, 21 CFR 50 requirements must also be met;
- 4.2.5 For clinical trials under non-U.S. national health authority oversight, including IND clinical trials conducted internationally, ensuring that in-country regulatory authority requirements are followed, as appropriate;
- 4.2.6 Ensuring that the ICF is consistent with the protocol and associated documents (such as the Investigator's Brochure).

 National Institute of Allergy and Infectious Diseases	Document Number: DAIDS-OPC-A15-POL-00005	Revision Number: 03
Division of AIDS	Effective Date: 23 Jul 2025	Page: 3 of 4
Document Title: Requirements for Informed Consent Forms		

4.2.7 Developing associated or supporting documents (e.g., assents, participant information sheets, assessment of understanding questionnaires, etc.), as appropriate.

4.3 Contractors and Grant Recipients

4.3.1 For studies under single IRB (sIRB), the contractors or grant recipient either directly or working with Protocol team will obtain sIRB approval of the ICF.

5.0 POLICY

5.1 All ICFs for DAIDS-supported and/or-sponsored clinical research must comply with the requirements of 45 CFR 46, as well as all other applicable regulations, laws, and institutional policies and procedures.

5.2 In addition, for clinical research that meets the NIH definition of clinical trial, the content of the informed consent forms must also comply with the requirements of ICH E6.

5.3 For U.S. FDA-regulated IND clinical trials, 21 CFR 50 requirements must also be met.

5.4 For clinical trials under non-U.S. national health authority oversight, including IND clinical trials conducted internationally, in-country regulatory authority requirements must be met.

5.5 When multiple requirements apply, the most stringent law, regulation, guidance, and/or policy(ies) must be followed.

5.6 The ICF(s) must be revised to incorporate any changes to the protocol and any significant new findings and information learned during the research study that may impact a participant's willingness to join or continue in the study.

7.0 APPENDICES

Not applicable

8.0 REVISION SUMMARY

- 8.1 POL-A15-OPC-005.00 is the initial version of The Requirements for Informed Consent Form and Process Policy submitted to the DAIDS QMS as version 00.

The Requirements for Informed Consent Form Policy replaces The Requirements for Informed Consent Development Policy published on the DAIDS Clinical Research Policies webpage prior to the implementation of the DAIDS QMS in 2018. The Informed Consent Form Policy updates the requirements for informed consent, including information about the informed consent process, revised Common Rule, and ICH E6.
- 8.2 DAIDS-OPC-A15-POL-00005 rev 01 is the same as version 00, the document was uploaded to the new electronic system.
- 8.3 DAIDS-OPC-A15-POL-00005 rev 02 is the second revision of this Policy in MasterControl. The document format and numbering were updated to reflect the current requirements. The policy was also modified to: 1) revise the scope to indicate that site requirements are covered in the Score Manual and 2) add links to references.
- 8.4 DAIDS-OPC-A15-POL-00005 rev 03 was revised on 5/28/2025 to 1) revise the purpose, scope, and policy sections to state “DAIDS-supported and/or-sponsored clinical research”, 2) revise language regarding the SCORE Manual in the SCOPE section, 3) revise the title of the glossary, and 4) update reference from ICH E6(R2) to ICH E6(R3).
